DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8 are drawn to a tunable laser source, classified in class 372, subclass 45.
- II. Claims 9-26 are drawn to a method for fabricating a tunable laser with an integrated modulator, classified in class 438, subclass 1+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the method for fabricating a tunable with an integrated modulator can be used to fabricate a different kind of semiconductor device.
